Dominic Michael Newman

Dominic Newman was a long-serving New Zealand hockey representative, who was part of the Black Sticks from 2016–2022. He played 58 games in the national colours, including a World cup and the 2018 Commonwealth Games team that won a silver medal.

Playing hockey taught Dom many life lessons including the importance of teamwork, accountability and dealing with different personalities. He loved the friendship that came from being part of a team and working towards a common goal.

Dom played for College's 1st XI from Year 10 and played more than 100 games for us. He advises any young players to dream big, enjoy the journey and celebrate the small wins along the way.

Based in Auckland since leaving Christ's College, Dom is now concentrating on his career as a landscape architect in Auckland.
