Dominic Michael Newman

Dominic Newman was a long-serving New Zealand hockey representative, who was a member of the Black Sticks from 2016–2022. He played 58 games in the national colours, including at a World Cup, and the 2018 Commonwealth Games, winning a silver medal.

Playing hockey taught Dom many life lessons, including the importance of teamwork, accountability, and dealing with different personalities. He loved the friendships that came from being part of a team and working towards a common goal.

Dom was a member of College's 1st XI from Year 10, playing more than 100 games. He advises any young players to dream big, enjoy the journey, and celebrate the small wins along the way.

Based in Auckland since leaving Christ's College, Dom is now concentrating on his career as a landscape architect.
