

Good sponsorship creates great opportunities

Sponsorship is about more than reaching outcomes. It's about more than dollars and cents. Sponsorship means our boys are given the opportunity to aim for high standards and achieve excellence. Sponsorship so often provides the extra resourcing it takes to engage the high-quality expertise and equipment that makes all the difference between simply taking part and exceeding performance goals. Sponsorship gives us that extra edge.

Sponsorship creates responsibilities within a team and drives the standard of excellence for which all areas of sport and drama strive. Without you, we could not achieve these amazing outcomes, of which our whole community can be proud.

This report acknowledges your support and demonstrates the results of sponsorship partnerships that place your brand within a quality Christ's College sponsorship community, giving our boys the opportunity to be their best.

Thank you.

CHRIST'S COLLEGE
CANTERBURY
